RULE 34-180
VESSELS TO VACATE
ISSUED: 22APR2003
EFFECTIVE: 23APR2003

Such situations include, but are not limited to, the following: when a potential natural disaster such as a hurricane, tornado, earthquake, or flooding, makes the continued presence of the vessel a threat to the vessel and/or the Authority's facilities; when the berth is committed to others under a preferential berth arrangement or other agreement; when the vessel's cargo or other rules represent a hazard to other vessels, cargo or facilities; and when the vessel refuses to work continuously to completion of its loading and/or discharge.

The Authority shall provide written notice (administrative message, facsimile transmission, etc.) to the steamship line or the ship's agent advising of the requirement to vacate. The notice shall state the time that the berth must be vacated and shall be presented at least eight hours prior to said time.

If a vessel fails to promptly vacate as ordered, it shall be responsible for any damage or expense which may be incurred by the Authority or others as a result of such failure to vacate. The Authority shall have the option, but not the duty, of moving the vessel to another location at the risk and expense of the vessel. If such movement occurs, the vessel shall hold the Authority harmless for any damage or liability it may incur as a result of such movement.
